Final Project

Rubrics & Description

Financial Statement Analysis (FIN 309)

Department of Banking and Finance

Academic Year: 2025-26 (Term-2)

**College of Business Administration
Imam Abdulrahman Bin Faisal university**

1. Project Introduction:

This project provides students the chance to learn best practices in equity research. Equity research or equity valuation is the process of determining the intrinsic value of a company's equity. This is a crucial step for investors in making informed decisions about whether to buy, hold, or sell a stock.

Methods of Equity Valuation

There are several methods used to value equity, each with its own strengths and weaknesses:

Discounted Cash Flow (DCF) Analysis: This method estimates the value of a company based on the present value of its expected future cash flows e.g., Dividend Discount Model (DDM), Free Cash Flow to Firm Model (FCFF), Free Cash Flow to Equity (FCFE) Model and Relative Valuation model which helps to compare the valuation multiples of a company to those of its peers e.g., Price-to-Earnings (P/E) Ratio which compares a company's stock price to its earnings per share.

Team of five students will compete against each other in the area and will have the chance to:

- ✓ Analyse a non-finance sector public company
- ✓ Write an equity research report
- ✓ Present their research to a high-profile panel of experts
- ✓ Advance to CFA Local Research Challenge if they win this event.

2. Course Learning Outcome to be achieved by this project:

CLO Code	Course Learning Outcomes	CLOs aligned with PLOs
S-2	Analyze financial information using different tools and techniques.	PLO-S04
V-1	Demonstrate the ability to work effectively& ethically in a group assignments and projects.	PLO-V01

3. Workflow Required for Project Report and Presentation

Business Description	5 Points
Competitive Analysis	5 Points
Industry Analysis	5 Points
Comparative Analysis	10 Points
Common Size Analysis	10 Points
Ratio Analysis	15 Points
ESG Analysis (Environmental, Social and Governance)	10 Points
Investment Risk Analysis	10 Points

Equity Valuation	25 Points
Recommendation (Buy or Sell)	5 Points
4. Report Structure:	
1) Intro: • Brief intro into chosen company • Industry analysis • Competitive analysis • Data & Methodology: from where did you collect your data and what method are you using for your analysis 2) Body: Main Analysis: • Comparative, Common-size, and ratio analysis: briefly go over relevant observations • Forecasted Financial Statements • DCF analysis: ○ Go over your assumptions and justifications for it (very important). Mention any accounting adjustments needed. Your assumption on discount rate. Etc. ○ Your results • Relative valuation: • Blended method final results. 3) Sensitivity Analysis and Final Decision: • Go over your sensitivity analysis • Final decision • Limitations Suggested Work Distribution: • Student 1: Intro, Business (SWOT), industry (Porter's 5 Model), comparative, common-size • Student 2: ratios, relative valuation • Student 3: Forecasting financial statements • Student 4 & 5: DCF growth assumptions + DCF model + sensitivity	

- All: Poster design and preparation. Decide on final blended weightage and buy/sell decision. Prep for presentation

5. General Guidelines:

1. Each group should consist of a maximum of 5 students.
2. This project should reflect fair teamwork among group members as report marks will equally distributed among all members of the group.
3. Each group should assign a group leader as a point of reference with the course instructor.
4. The written report should be between 3500-4500 words max.
5. Use secondary sources to collect data and information to build your report & presentation.
6. The presentation should take no longer than 15 mins, followed by 5 mins for questions and answers session. **All students of the group must participate in the presentation** (Presentation marks will be awarded based on individual performance).
7. Make sure to include visual aids such as graphs, tables (matrices), diagrams and/or pictures to highlight your points clearly, both in the report and in the PowerPoint presentation.
8. The report and presentation should be uploaded as a soft copy on the Blackboard.
9. The submission deadline, for both the report and model, is on **30 April 2026**.
10. Tentative Presentation date is **07th May 2026** (details will be announced via blackboard).
11. Late submission: Due dates will be firmly adhered. If the project and presentation are not submitted by the due date, a penalty of 20% per day will be deducted from the assessment mark.
12. Writing Guidelines: Paper size: A4, Line Spacing: 1.15, Margins: Normal all sides, Font: Times New Roman, Font Size: 12 for text and 14 for heading. Harvard referencing should be used for in-text references and bibliography.
13. Your report and slides should be grammatically correct, well punctuated, clear, concise, neatly presented, and easy to read.
14. **Plagiarism: will not be tolerated at all and will lead to deduction of marks and serious action.**

6. Holistic Rubric (Mental Agility) Project Report

Evaluation Code (AACSB)		E	M		DM	Marks Allocated
Sr.	Assessed Items with Maximum Marks	Exceed	Meet (Minor Improvement)	Meet (Major Improvement)	Does not Meet	
Marks Allocation		10	9	8	7	10
1	Organization of Report: Academic English: Grammar, spelling, punctuation, vocabulary, referencing style (HBR) and flow of writing.	Paragraphs & Arguments are skillfully organized.	Paragraphs & Arguments are well organized.	Paragraphs & Arguments are organized.	Paragraphs & Arguments are disorganized.	
Marks Allocation		10	9	8	7	10
2	Resourcefulness: Usage of Primary and Secondary data/information. Collection Background of Organization.	Conclude through appropriate information to formulate compelling argument and demonstrate mastery of content throughout.	Adequately include appropriate information to formulate compelling argument and demonstrate the content throughout.	Include information to formulate argument and the content.	Include only minimal information to formulate argument and the content.	
Marks Allocation		40	36	32	28	40
3	Analysis/Critical Thinking: Analysis of data or scenario/cases.	Comprehensively analyzed organizational factors.	Adequately analyzed organizational factors.	Partially analyzed organizational factors.	Used minimal organizational factors for analysis	
Marks Allocation		40	36	32	28	40
4	Decision Making & Problem Solving/Creativity: Conclusion/results to identify the right solution.	Demonstrate masterful use of information analysis to identify the right solution for the organization.	Demonstrate adequate use of information analysis to identify the right solution for the organization.	Use of information analysis to identify the right solution for the organization.	Use of minimal information analysis to identify the right solution for the organization.	
Total out 100						

Marks Allocation		20	18	16	14
5	Values & Ethics: Commitment to values, standards, and ethics.	Depicts best ethical and social practices during the work.	Conforms to ethical and social practices during the work.	Barely meets the ethical and social practices during the work.	Lacks the Ethical/ social practices during the work.
Marks Allocation		30	27	24	21
6	Autonomy & Responsibility: Autonomously and Professionally manage the tasks & teamwork.	Depicts best practices & Professionalism in managing the tasks & teamwork.	Depicts good practices & Professionalism in managing the tasks & teamwork.	Barely shows Professionalism in managing the tasks & teamwork.	Lack of Professionalism in managing the tasks & teamwork.

7. Holistic Rubric (Mental Agility)

Project Presentation

Evaluation Code (AACSB)		E	M		DM	Marks Allocated
Sr.	Assessed Items with Maximum Marks	Exceed	Meet (Minor Improvement)	Meet (Major Improvement)	Does not Meet	
Marks Allocation		10	9	8	7	
1	Presentation Framework Opening/Overview, body, and closing	clarified the importance of the subject to the audience and gets their attention.	Mostly fulfilled clarified the importance of the subject to the audience and gets their attention.	Partially clarified the importance of the subject to the audience and gets their attention.	Not clarified the importance of the subject to the audience and gets their attention.	10
Marks Allocation		20	18	16	14	
2	Content Development & Support Each main point is well supported with facts, anecdotes, or other evidence that is both sufficient and necessary.	Fully provided Each main point is well supported with facts, anecdotes, or other evidence that is both sufficient and necessary.	Mostly provided Each main point is well supported with facts, anecdotes, or other evidence that is both sufficient and necessary.	Partially provided Each main point is well supported with facts, anecdotes, or other evidence that is both sufficient and necessary.	Not provided Each main point is well supported with facts, anecdotes, or other evidence that is both sufficient and necessary.	20
Marks Allocation		20	18	16	14	
3	Communication & Delivery Style Shows preparation, maintains interest, reinforces main points and manages the time.	Communication is grammatically correct, interesting, demonstrates industry knowledge, connects with audience, and flows well. Error free	Communication is grammatically correct, interesting, demonstrates industry knowledge, connects with audience, and flows well. Limited errors.	Grammar occasionally interferes with communication. Includes some errors. AND/OR Language moderately appropriate to audience/industry.	Errors in grammar and format (spelling, punctuation, capitalization, headings). AND/OR Uses language that sometimes impedes meaning because of errors in usage.	20
